Subject: checking in on Buffalo Mountain mine NPDES permit

Linda,

Wanted to follow up with you as I know your technical folks were able to make it into the field to review the monitoring station locations as well as do some independent sampling both at Buffalo Mtn and Peg Fork (it was the annual spring sampling time during that week so it worked out well that Greg et al could go along!).

Appreciate a call or a note when you get a chance. Evidently some things were said at an interagency coordination meeting on the mine/highway a few weeks ago that stirred a lot of folks up. I've been able to keep most of that at bay with factual information not rumor. But I do want to make sure that now the sampling stations have been reviewed that you and your team will be able to schedule a call soon to review any further issues that may remain outstanding. I'd sure like to wrap this up as soon as possible ☺

k
